Study Abroad
Electrical and Computer Engineering

Why Study Abroad?

Open your eyes to the world. Science and technology have no borders! Invest in your future by developing cross-cultural skills that will enable you to communicate with scientists anywhere in the world.

Enhance your career. Learn how to function in a culturally diverse environment early on. Develop broader skills, and ability to adapt to new environments.

Personal growth. See your culture and yourself from a different perspective. Learn to appreciate other languages and cultures, while better understanding your own cultural values.

Did you know?
You do not need to speak another language to study abroad. Many programs offer courses in English.

Experience ECE Abroad!
Exposure yourself to different programs such as medical imaging, nanotechnology, and sensor networks that correlate to the connected world.
