Study Abroad
OPTICS

Experience Optics Abroad!
"...the experience abroad as an Optical engineer serves as an important break, a distinguisher from the horde, and gives a well-rounded education experience."
Elie Glik '14, UNSW, Sydney Australia - Spring 2013

Why Study Abroad?

Open your eyes to the world. Science and technology have no borders! Invest in your future by developing cross-cultural skills that will enable you to communicate with scientists anywhere in the world.

Enhance your career. Learn how to function in a culturally diverse environment early on. Develop broader skills, and ability to adapt to new environments.

Personal growth. See your culture and yourself from a different perspective. Learn to appreciate other languages and cultures, while better understanding your own cultural values.

Did you know?
You do not need to speak another language to study abroad. Many programs offer courses in English.
Some recommended programs for your majors:

**United Arab Emirates**

CIEE Sharjah

http://www.ciee.org/study-abroad

**Australia**

University of New South Wales

www.unsw.edu.au

IES Sydney

www.iesabroad.org

**Spain**

IES Madrid

www.iesabroad.org

Also consider: IES Auckland and CIEE Sharjah.

---

**Financial Aid**

Financial Aid Counselors meet with students by appointment to discuss their specific study abroad plans and financial aid eligibility.

**Scholarships**

There are many scholarships and loans designed specifically for study abroad. We strongly encourage you to consider applying. UR students have won these scholarships or used this aid in the past.

**Getting Credit**

For major or departmental credit:

Prof. Brown

Office: Goergen 516

thomas.brown@rochester.edu

For elective credit, consult with a Study Abroad advisor.
