

AkknaTek GmbH is a young startup company and specialized in development of innovative technologies in the field of medical imaging. To strengthen our team, we are looking for a motivated and qualified team member in the field of optical imaging:

Student Assistant / Internship - Optical Design (m/f/d)

What you can expect:

As an optical design engineer you can expect responsible and diversified tasks. You will be involved in planning and implementation of new software products, as well as technical documentation.

Your profile:

- *Bachelor or Master degree in optics, engineering, computer sciences, mechatronics, biomedical engineering, or comparable studies*
- *Good knowledge in computational optics, visual optics, raytracing*
- *Assessment of image quality of optical system*
- *Practical skills in Zemax optical design software*
- *Understanding of image acquisition technologies is very desired*
- *Experience in technical documentation is advantageous*
- *Team work, creativity, motivation*
- *Experience with deadlines*

What we offer:

- *Possibility to be part of an attractive and innovative development project in the field of ocular optics*
- *Friendly and open-minded working atmosphere*
- *Flat hierarchies and fast decision making*
- *Possibility for a remote work*

Interested?

Then we are looking forward to your application including your salary expectation as well as your next possible date of joining via mail to career@akknatek.com
