

## Hajim International Experience Scholarship Spring 2019

The Hajim International Experience Scholarship funded by The Hajim Dean's Office offers grants for undergraduate students to pursue academic studies or credit-bearing, career-oriented and research internships abroad. Such international exchange is intended to better prepare Hajim students to assume significant roles in an increasingly global economy and interdependent world.

International experience is critically important in the educational and career development of Hajim students, but it can also require a substantial financial investment. The Hajim International Experience Scholarship is designed to encourage the student population that studies and interns abroad by supporting undergraduates who might not otherwise participate due to financial constraints. The Hajim Deans Office International Experience Scholarship aims to support Hajim School students who have been traditionally under-represented in education abroad, including but not limited to, students with high financial need, and students with diverse ethnic backgrounds. Award recipients are chosen by a competitive selection process and must use the award to defray eligible study, research or intern abroad costs. These costs include program tuition, room and board, books, local transportation, insurance and international airfare.

### **Hajim International Experience Scholarship Service Project Requirement:**

Just as important and life-changing as time abroad can be for a student, so too can sharing that experience be life changing for others.
